

CQA Training Week

Accredited Geosynthetic Laboratories
Accreditation Designation # GAI-LAP-95-01

CONSTRUCTION QA/QC for GEOSYNTHETIC INSTALLATIONS

Wed., Dec. 8, 2010

CONSTRUCTION QA/QC FOR COMPACTED CLAY LINER & GCL INSTALLATION

Thurs., Dec. 09, 2010

GEOSYNTHETIC INSTITUTE (GSI) - CQA INSPECTORS CERTIFICATION PROGRAM - CQA CERTIFICATION EXAM

Friday, Dec. 10, 2010

Location

TRI/Environmental, Inc.

Bldg. A Facility

9063 Bee Cave Road, Austin, TX 78733, USA

About the Training Courses

Field CQC / CQA Training (Dec. 08-09, 2010)

These two 1-day courses have been specifically designed for those persons who have a need for a detailed understanding of proper CQC and CQA procedures for waste containment facilities.

This course is ideal preparation for the Geosynthetic Certification Institute's certification exam

and will provide a comprehensive understanding to those professionals who are: preparing CQC/CQA plans, reviewing CQC/CQA plans, performing CQC/CQA observations and tests, and reviewing field CQC/CQA procedures.

Professionals who will benefit from this course include

- Specifying/Certifying Engineers
 - Construction/Quality Assurance
 - Project Managers
 - Installers/Contractors
 - Third Party Inspectors
 - Regulators
-

The two courses present the materials in two parts, each complementing the other to provide maximum benefit. The first day focuses on installation of geomembranes, geotextiles, geocomposites, geogrids and geopenance, and includes a geomembrane seaming demonstration with a detailed explanation & demonstration of seam peel and shear testing. The second day focuses on the installation of compacted clay and compacted clay and geosynthetic clay liner (GCLs). Special emphasis will be given to establishing rationale and standard operating procedures for field inspections, documentation of test and visual observations and implementation of CQA plans. A broad based appreciation for the manufacturing and installation of waste containment facility materials will be provided. A tour of TRI's Geosynthetic Testing and Research Laboratories will be provided with test demonstrations, explanation of some TRI internal R&D projects, etc. and other relevant topics, all supporting class curriculum.

GCI CQA Certification Exam (Dec. 10, 2010)

Each CQA course student will be allowed to sit for the **Construction Quality Assurance-Inspectors Certification Program (CQA-ICP)** exams immediately following the CQA courses. The GCI exam itself is part of the GCI CQA technician certification program. Thus, students **MUST REGISTER** with the Geosynthetic Institute (GSI) and pay their required certification fee in order to take this exam. TRI does **NOT** collect this fee as it must be paid directly to GSI (GSI phone: 610-522-8440).

Why you should attend...

Electrical Resistivity Testing and Construction QA of geosynthetics can be smooth additions to your Engineering Consulting and Design Practice. Each student will be provided a certificate of course completion, suitable for use in proposals and statements of qualifications for CQC/CQA work. This unique one-week dedicated CQA training program provides a wonderful opportunity for professional growth and business development.

Where to stay for the courses...

Holiday Inn Express Hotel & Suites, Austin-Sunset Valley, 4892 US Highway 290 West, Austin, TX 78733, 1 800 315 2621, 10 miles from airport, 9.9 miles from short course, NO shuttle service
Extended StayAmerica Austin – Southwest, 5100 US Hwy. 290 W., Austin, TX 78735, Telephone: 512-892-4272, 15.7 miles from airport, 9.54 miles from short course, NO shuttle service

About TRI...

TRI/Environmental, Inc. (TRI) has been active in geosynthetics testing, inspection and research and development for over eighteen years. TRI is an independent, third party laboratory unaffiliated with any manufacturing, engineering/consulting, or construction management firm.

Download registration forms for the courses and exams at www.GeosyntheticTesting.com

INSTRUCTORS

Special Guest Instructor: Mark Sieracke, P.E. - Landfill Design and CQA Consultant

Mark D. Sieracke, P.E. is an industry recognized expert in the fields of landfill design and construction quality assurance. Mark serves as a Principal and Solid Waste Practice Area Manager for Weaver Boos Consultants. Mark has served as a Technical Reviewer of the USEPA Technical Guidance Document: Quality Assurance and Quality Control for Waste Containment Facilities (EPA/600/R- 93/182, Sept. 1993). Mark has served as a hands-on CQA practitioner, certifying engineer and as a consultant for over 1000 acres of geosynthetic installations. He currently contributes routinely to landfill failure investigations and constructability reviews for design engineers. Mark currently serves on the Waste Management Inc. (WMI) Geosynthetic task force creating the corporate standards for CQA.

Dr. Robert Gilbert, P.E. - Professor, The University of Texas at Austin

Robert (Bob) Gilbert, Ph.D., P.E. is a professor of civil engineering at The University of Texas at Austin. He has more than ten years of consulting experience in the design and construction of landfill lining and cover systems. He has authored or co-authored numerous publications on the stability of these systems. Dr. Gilbert has been very instrumental in understanding clay and GCL liner systems, interface friction testing, and the use of data for slope stability design.

Sam Allen - Vice President and Division Manager

Mr. Allen is the Vice President of the Texas Research International (TRI) Geosynthetics Services Division. Sam is the Chairman of Committee D35 on Geosynthetics within ASTM. Sam also serves on the Technical Advisory Board of Geotechnical Fabrics Report, and is special advisor to the In the Lab column presenting testing issues. Sam currently serves on the Board of Directors of the Geosynthetics Institute in Folsom, PA.

Short Course / GCI Exam Cost/Tuition (see registration form) For registrations before Friday, November 13th, 2010

CQC/CQA Short Courses and CQA Exam

Dec. 08-09, both courses, 1 registrant per company	\$775.00/person
Dec. 08-09, both courses, 2 registrants per company	\$700.00/person
Dec. 08-09, both courses, 3 + registrants per company	\$625.00/person
Dec. 08-09, both courses, both courses, government	\$180.00/person
One course (day) only, 1 registrant per company	\$475.00/person
One course (day) only, 2 registrants per company	\$425.00/person
One course (day) only, 3 + registrants per company	\$375.00/person
One course (day) only, government	\$95.00/person

GCI Exam

Dec. 10, TRI fee for one applicant only per company	\$35.00/person*
Dec. 10, TRI fee for 2+ applicants per company	\$20.00/person*

*The exam costs above **DO NOT reflect the cost for sitting for the GCI exam**, only TRI's exam proctoring cost for offering the exam as part of the short course event.

The GCI exam is part of the GCI CQA technician certification program. Because of this, **one MUST REGISTER** with the **Geosynthetic Institute (GSI)** and **pay their required certification fee** in order to take this exam. **TRI does NOT collect this fee**, it must be paid directly to GSI.

GSI phone: 610-522-8440

CQA FOR GEOSYNTHETIC INSTALLATIONS SHORT COURSE OUTLINE

Day 1 – Wednesday, December 08, 2010

7:30-8:00am	Registration	
8:00-8:15	Welcome and Introductions	Allen
8:15-8:30	CQA Principles and Philosophy <i>(Responsibilities, appreciation of role, professional considerations and on-site protocol, conflict resolution, etc.)</i>	Sieracke
8:30-9:30	Background of Geosynthetics and Manufacturing <i>(Polymers to products, material properties, product manufacturing)</i>	Allen
9:30-10:30	HDPE & LLDPE & fPP Geomembranes & Seams <i>(Types and specifications, shipping/receiving, unloading, storage & installation)</i>	Sieracke
10:30-10:45	Break	
10:45-11:15	HDPE & LLDPE & fPP Geomembranes & Seams - Continued	Sieracke
11:15-12:15	Welding Demonstration/Seam Testing <i>(Double track fusion welds, extrusion welds, "T" welds, seam sampling, peel and shear testing, peel incursion and strain measurements, modes of failure, break codes, field vs. laboratory testing)</i>	Sieracke & Installer
12:15-1:00 pm	Lunch (provided)	
1:00-2:00	Special Guest Lecture: TBD	
2:00-2:30	PVC Geomembranes & Seams <i>(Types and specifications, shipping/receiving, unloading, storage & installation)</i>	Allen
2:30-3:30	Geotextiles, Geonets/Geocomposites, Geogrids, Pipe, Erosion Control <i>(Types and specifications, shipping/receiving, unloading, storage & installation)</i>	Allen
3:30-3:45	Break	
3:45-4:30	Protection and Soil Cover	Sieracke
4:30-4:45	CQA Paperwork and Record Keeping <i>(Importance of documentation, communication records, examples of record keeping and documentation, checklists)</i>	Sieracke
4:45-5:00 pm	Discussion	
5:00-6:30 pm	Tour of TRI Geosynthetic Testing and Research Laboratories (test demonstrations, explanation of some TRI internal R&D projects, etc.)	
6:00-8:00	Texas BBQ Dinner !!!! (provided)	

CQA FOR COMPACTED CLAY & GEOSYNTHETIC CLAY LINER INSTALLATIONS
SHORT COURSE OUTLINE – Dr. Robert (Bob) Gilbert
Day 2: Thursday, December 09, 2010

8:00-8:30 am	Registration
8:30-9:00	Liner and Cover Systems <i>(single liners/double liners/composite liners, leakage rates through soil, composite action with geomembranes, importance of drainage layer properties)</i>
9:00-10:30	Compacted Clay <i>(materials, factors affecting hydraulic conductivity, clod vs. particle orientation theory, keys to low hydraulic conductivity, water content-density criteria, recommended procedures for determining acceptable zone, influence of overburden stress, bonding of lifts, thickness)</i>
10:30-10:45	break
10:45-12:00	Construction of Compacted Clay Liners and Covers <i>(equipment, preprocessing of soil, soil moisture control, sieving, clod control, crushing/pulverizing materials, compaction, test pads)</i>
Noon-1:00 pm	Lunch (provided)
1:00-2:00	CQA for Compacted Clay Liners and Covers <i>(CQA principles, CQA plan, tests, observations, field water content tests, field density tests, hydraulic conductivity compliance tests, frequency of tests, sampling pattern, outliers, corrective action, role of test pads, final certification)</i>
2:00-3:00	History of GCLs <i>(commercially-produced GCLs, geosynthetic materials, manufacturing of GCLs, manufacturing quality control, recommended specifications)</i>
3:00-3:15	break
3:15-4:00	Bentonite <i>(measures of and tests for bentonite quality, recommended specifications for bentonite in GCLs, contaminant-resistant bentonite)</i>
4:00-5:00	Installation of GCLs <i>(transportation, handling, storage, subgrade preparation, placement procedures, seaming protection, construction quality control and assurance, observations, types of tests, frequency of testing, field case history)</i>
5:00-5:30	Open discussion

CERTIFICATION EXAM

Construction Quality Assurance-Inspectors Certification Program

Day 3 - Friday, December 10, 2010

7:45-8:00 am	Registration and Introduction
8:00-10:00 am	Geosynthetic Exam
10:00 - 10:25 am	Break (on your own)
10:30-11:30 am	Compacted Clay Liner Exam

INFORMATION regarding exams:

1) ALL students wishing to sit for the exam(s) **MUST FIRST register for certification through the Geosynthetics Certification Institute and pay the applicable fees directly to GSI** (phone: 610-522- 8440). GSI registration must be received by the GSI 7-10 days before the Dec. 10th exam(s).

2) Students are **REQUIRED** to bring a government-issued photo **ID** prior to entering the testing room. They must also supply the Proctor with a photocopy of the ID when turning in the test.

3) Time allowed:

Students will be given two hours to take the geosynthetic test. There are 140 questions and you must answer 70% of the questions correctly in order to pass. Please note that there is only one correct answer for each question.

You will be given one hour to take the compacted clay liner test; there are 30 questions and you must answer 70% of the questions correctly in order to pass. Please note that there is only one correct answer for each question.

4. The test is a multiple-choice test. The student must circle the correct answer (and only one answer) for each question. They must not select multiple answers for the same question.

TRI REGISTRATION FORM

CQA Course Registration Fees:

- Dec. 08-09, both courses, 1 registrant per company \$775.00/person
- Dec. 08-09, both courses, 2 registrants per company \$700.00/person
- Dec. 08-09, both courses, 3 + registrants per company \$625.00/person

- One course only, 1 registrant per company \$475.00/person
- One course only, 2 registrants per company \$425.00/person
- One course only, 3 + registrants per company \$375.00/person

GCI Exam Fees

- Dec. 10, One applicant only per company \$35.00/person*
- Dec. 10, 2+ applicants per company \$20.00/person*

* These fees DO NOT pay for the exam, only the venue for taking the exam. The GCI exam is part of the GCI CQA technician certification. You MUST REGISTER with the Geosynthetic Institute (GSI) and pay the required certification fee directly to GSI in order to take this exam, (GSI phone: 610-522-8440)

Registrations must be received by **5:00 pm CST, Friday, November 13, 2010** - \$50.00 /person late fee thereafter. Fee includes: course notes and handouts, designated dinner the evenings of Dec. 08, and lunch and AM & PM breaks each day. \$50.00 cancellation fee for refunds requested before November 13, 2010 -- no refund thereafter. Course notes are NOT sold separately.

Method of Payment: Payment may be made by check, money order, American Express, Visa or MasterCard.

- Check Money Order Purchase Order

Make check or purchase order payable to TRI/Environmental, Inc.,

Credit Card: American Express Visa MasterCard

Credit Card # _____ Expiration Date: _____

Please direct questions to Ms. Melissa Hunter or Mr. Sam Allen, phone: (800) 880-8378, fax: 512) 263 2558.
