

GMAtechline@ifai.com

An unanswered question can stop your business in its tracks.

The GMA Techline will put you back in the fast lane.

The Geosynthetic Materials Association (GMA) with cooperation from the Geosynthetic Institute (GSI) is pleased to introduce the GMA Techline, a resource for technical questions about geosynthetics.

Don't second guess, get expert advice.

E-mail GMAtechline@ifai.com for fast, free and direct answers to your technical questions.

GMA serves as the central resource for information regarding geosynthetics and provides a forum for consistent and accurate information to increase the acceptance and to promote the correct use of geosynthetics. Visit www.gmanow.com for more information. The Geosynthetic Institute GSI is a consortium of organizations interested in, and involved with, geosynthetics. Visit <http://www.geosynthetic-institute.org/> for more information.
